

Color Tools For Color Circles

Essence & Magnetic Palette Cards

The Essence & Magnetic cards are 6"x 2" and are made of heavy card stock. The front is glossy with the backs matte for you to write on if you wish. The backs note each of the color names (Soul Eye, Vulnerable, etc) and include a tip for where to find in the shaded rectangle. The shaded rectangles are for where you can have your participants place their individual swatches. (If you don't have a particular swatch, you can have them write the Swatch ID for reference – see Order Form on last page.)

Note: Individual swatches have a peel-off backing that exposes a sticker for them to easily stick on the card. Most peel-off backs are easy but some (the white ones) are difficult. Bend the corner a bit to help you separate easily.

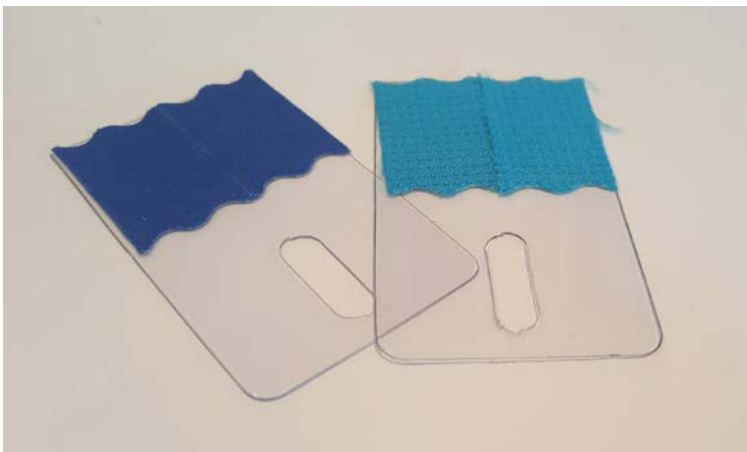

Munsell Swatch Tag Set (12 colors) – For Color Circle Soul Color Readings

This includes swatches that are closest to the 10 Munsell colors of 5R, 5YR, 5Y, 5YG, 5G, 5BG, 5B, 5BP, 5P and 5RP. It also includes Gold & Silver swatch tags. Order this set to use to pull from.

Swatch Tags

Swatch tags are a tad wider than the color paddles and half the length. They work well if you want to provide a bigger 'canvas' of color for each swatch.

The **Swatch ID** is the [Paddle Code]–[Swatch #]. Example: **5BG2-3**

- To get the Paddle Code:** Use your Master Set and use the code from the back of the paddle where your selected swatch is. Example: 5BG2
- To get the Swatch #:** Count from the top to the bottom to select the swatch. The top starts at 1 with the bottom ending at 5 or 6. The bottom is where the ring resides.
